

**Opening for Junior Research Fellow (JRF) position as part of WorldFish funded project ‘Taking nutrition-sensitive carp-SIS polyculture technology to scale’ to be undertaken in the Centre for Climate and Environmental Studies (CCES) at IISER Kolkata**

Funding Agency: WorldFish

Temporary Position: Junior Research Fellow (Project funded)

Duration: Initially for a period of one year and can be extended up to 3 years subject to satisfactory performance

Number of vacancy- 1

Salary- Rs 35000 per month (consolidated)

Age Limit- 35 years; Relaxation as per existing guidelines

Project Details: The project intends to map Small Indigenous Fish Species (SIS) in the states of Assam and Odisha across scales of habitat and molecular level using a series of integrative approaches including high-throughput genomics. The mapping of SIS will be pivotal towards mass production based on polyculture technology. For further details please write to Prof. Purnyasloke Bhadury at [pbhadury@iiserkol.ac.in](mailto:pbhadury@iiserkol.ac.in)

Qualifications: Master’s degree in Life Science/Zoology/Fisheries/Natural Science/Biotechnology or Agricultural Science from a recognized University or equivalent with minimum 55% marks at CGPA level. Preference will be given to NET-LS/GATE/ICAR-NET or any other national exam qualified candidates. Proven experience in conducting field work in freshwater systems or application of molecular biology tools in natural science studies including fisheries or experience in taxonomy of SIS would be preferred.

Application procedure- Send CV with a cover letter expressing intent to [pbhadury@iiserkol.ac.in](mailto:pbhadury@iiserkol.ac.in) or [pbhadury@gmail.com](mailto:pbhadury@gmail.com)

Last Date of Application- 23rd October, 2022

More details: The position is purely temporary in nature. Only short-listed candidates will be called for the interview. Interview will be held in person in Kolkata or Guwahati. No TA/DA will be paid for attending the interview.
